Oleksandr Zahoruiko

Android & Full-Stack Developer · Lecturer

Orléans, France · sunmeatrich@gmail.com

sunmeat.dev · github.com/sunmeat · t.me/sunmeat

Profile

Orléans-based software engineer and lecturer building native Android applications end to end — from first sketch to a live listing on Google Play. Also developing full-stack web applications with React on the frontend and Spring Boot / Django / ASP.NET Core / Node.js on the backend. Five+ published apps so far — just the beginning. Over nineteen years of writing and teaching code.

Skills

- **Mobile:** Jetpack Compose · Flutter · ML Kit / MediaPipe · Material Design · React Native · Room · .NET MAUI · Clean Architecture · MVI / MVVM
- **Languages:** C++ · C# · Java · Python · JavaScript · TypeScript · SQL · PHP · Kotlin
- **Frameworks:** ASP.NET Core · Blazor · Spring Boot · Django · Node.js · Next.js · React · Electron.js · FastAPI
- **Tooling:** Git & GitHub · Docker · PostgreSQL · REST APIs · CI/CD · Figma · GraphQL / gRPC · AI Ecosystem · Redis · Postman · Webpack / Vite

Experience

Freelance Full-Stack & Android Developer

Independent · Jul 2023 — Present

Designing, building, and deploying end-to-end software products. Developing native Android apps and full-stack web applications using React + Spring Boot / Django / ASP.NET Core / Node.js + Firebase / PostgreSQL / MySQL, including database setup, API integrations, and Google Play publishing.

Technical Project Consultant

GastroLab · May 2017 — Dec 2017

Provided architectural guidance, code reviews, and technical consulting for web and mobile solutions. Assisted in optimizing system performance, streamlining API design, and advising engineering teams on best software practices.

Independent Software Engineer & R&D

Open Source / Side Projects · Jun 2022 — Present

Building and maintaining custom developer tooling, exploratory mobile modules, and open-source utility libraries. Experimenting with modern web frameworks, algorithm optimization, and UI/UX patterns.

Leading Teacher Specialist

IT Step Academy, Odesa · Sep 2007 — Present (Remote)

Educating and mentoring future software engineers in C++ / C# / Python Web / Android development / Databases; OOP, algorithms, data structures, design patterns / SOLID. Developing custom proprietary educational materials, conducting student code reviews, and supervising capstone software projects using SCRUM.

Night Shift Venue Logistics & Facility Specialist

ASTRA Club, Orléans · Aug 2026 — Present

Streamlining night-shift venue logistics, rapid floor management, and deep sanitation protocols for high-capacity hard techno events. Maintaining strict operational safety and hygiene standards, optimizing post-event cleanup workflows under tight turnaround times, and ensuring high-throughput venue readiness during peak operations.

Education

Master's degree, Programming

IT Academy Step, Odesa · 2005 — 2010

Bachelor's degree, Economics

Open International University of Human Development “Ukraine”, Mykolaiv · 2005 — 2010

Continuous Education & Professional Certifications

Cisco, Microsoft, Google Play Academy, IBM, Prometheus, ITVDN, HackerRank, etc. · Ongoing

Constantly expanding technical expertise through specialized courses, hands-on skill validations, and industry certifications in software engineering, networking, and cloud services.
